When it became known that Northern Pacific and other companies were meeting their interest charges promptly, and that Denver and Rio Grande was the only road of importance which had defaulted, a buoyant feeling prevailed. The fact that Wabash receivers were paying interest on a larger number of bonds than was ex-

ected also had a favorable effect. This restored confidence in a great measure and considerable stock was taken for long account. Prices rose | to 4| per cent. There were reactions at intervals, but each de-

cline brought in new buying orders, and the market closed strong. Compared with

last night closing prices are ‡ to 4½ per cent. higher, except for New Jersey Cen-tral, which is ½ per cent. lower. Closing

CHICAGO, July 1.—The history of the speculative markets on the Board of Trade during the month of June is the story of a steady shrinkage in values. No bad and other months advanced 14 to 28 points. and often assisted by further financial troubles in the East, each day's closing has been slightly lower than the figures current twenty-four hours before. To such a degree has this distrust and depression carried itself, that the bulls have come consider they have won a victory if, by the aid of a heavy outward movement and a liberal decrease in the visible supply, they succeed in holding the market steady during even part of a session. All think the stuff a purchase, but prefer to hold off until the outlook is more settled and the market more under the control of legiti-

mate factors.

Corn has sympathized with wheat, and, with the addition of occasional stories of posted lots of "hot" corn in the East, the in-fluences have been the same. Many leading operators, however, consider this cereal too high, and think the range should be below 50c to be on a par with wheat. On account of this belief, there has been more ling than buying toward the close of the month, under free sales by Schwartz, Lester, Baker, Hobbs and Comstock a material drop was brongut about. Directly after this, however, it was whispered that B. P. Hutchinson, the great provision operator, having been worsted in his set to with Armour, had closed up his contracts in hog products and sent brokers into the corn

products and sent process into the corn-pit with instructions to quietly take all offerings. Since the circulation of this re-port the crowd have shown a disposition to curtail their short lines, as it is known that if "Old Huzch" has decided upon a squeeze the project stands more than an BREADSTUPPS.

TO THE PUBLIC! CAUTION! THE United States Circuit Court, by decision filed, has, for the Teath time, affirmed my patent right for forming Artificial Stone payement in sections upon the spot where it is to be used. Again, I caution all persons against the use of such payement without my authority, and I hereby give notice of my determination to prosecute to the full extent of the law all persons, whether manufacturer or employer, who infringe my said patent by constructing or using the payement covered by it. I am now, as I ever have been, ready to sell my patent for County or State rights for a small compensation.
